HELLO WEB

HTML ASSIGNMENT DAY-1

Congratulations on completing Day 1 of the workshop. We are assigning you two task to complete by tomorrow. (Don't feel pressured, they are very easy. Also you can contact us if you feel stuck). Now the tasks.

1. Download the final completed code of Day 1 from the git repo.

2. On our Boring Blog there are only three world wonders listed. Complete the blog by adding in the remaining modern world wonders .

3. Also fill the table with the remaining details.

BONUS ROUND

If you need additional challenge, we recommend these (this is not compulsory):

1. Change the design of the table. (Border color , font color, size , etc)

2. Try to make our Boring Blog not so boring.

NOTE for BONUS ROUND

When attempting the bonus round, you may need to google a lot , copy existing code , and at times find the code not working at all. Be patient and try to find the solution your own. A web developer always finds him in such position. Be mentally prepared to accept setbacks.
